

Application Serial No.: 10/789,968

3

Second Preliminary Amendment dated: June 21, 2006

Remarks:

The specification has been amended to update the status of the parent applications and to include a reference to parent application number 09/313,458 (the "'458").

Priority to the '458 is clearly claimed by patent application number 10/413,661 of which the instant application is a continuation. Reference to this priority was inadvertently overlooked at the time of filing the instant continuation application.

No new matter has been added.

If for any reason the Examiner feels that a telephone conference would expedite prosecution of the application, the Examiner is invited to telephone the undersigned at (206) 442-6558.

Respectfully Submitted,
